DEADLY TOY PISTOL

Gets in Its Work in Earlington—Has Four Victims and One Death to Its Credit.

CAUSED FROM LOCKAWA.

The deadly toy pistol is getting in its work early this Christmas. Already it has four victims and one death to its credit. On last Wednesday Charley Rousey, the son of Switchman Ronsey, accidentally shot himself in the hand with a toy pistol. The wound was thought to be slight at first, but afterward developed into tetanus, from which he died at 10 o'clock Monday morning. The little son of Scott Lamb also shot himself with one of these deadly toys on last Thursday and is suffering greatly from the effects of the wound, which has all symptoms of tetanus. In addition to these unfortunate ones two little colored boys were shot since, one of whom recovered. The other is still in a bad condition. In view of these facts and to save others from a similar fate, the Council of Earlington has issued the following ordinance:

The City Council of the City of Earlington do ordain as follows:

That on and after Dec. 7, 1903, it shall be and it is unlawful for any person to have, handle, display, carry, use, fire, discharge, sell, or expose for sale within the corporate limits of the City of Earlington any pistol, commonly known as or called the toy pistol, designed to carry, shoot or explode a blank cartridge; such pistol to be specifically excluded from this ordinance, if it is inches in length and one inch in diameter, and any person who shall violate this ordinance, or any part or parcel thereof, shall be guilty of misdemeanor, and upon conviction conviction therefor, shall be fined not less than \$10 nor more than \$50 for each offense.

W. M. F. BURN, Mayor.
W. ERNEST RASH, Clerk.

Perry-Jordan.

Mr. H. R. Perry and Miss Lula Jordan, both of Russellville, were united in marriage last Wednesday morning at 10 o'clock at the home of Mr. and Mrs. J. Frank Carter, of East St. Louis, Ill. Miss Jordan is the youngest daughter of Mr. and Mrs. Coleman Jordan, of Guthrie, Ky., and a sister of Mrs. J. E. Fayette of this city. She is an estimable young lady and has for several years past been way operator for the Cumberland Telephone Co. at Russellville, Ky., where she made many warm friends. Mr. Perry is a young man of good family. The Bee in conjunction with their other friends wish the happy couple a long and prosperous life.

Tale of Two Cities Changes Hands.

State Senator N. W. Utley, Mead, W. S. King and J. E. Greenway, of Eddyville, Ky., have purchased the Tale of Two Cities and a new outfit complete. These gentlemen expect and hope to make "Tale of Two Cities" an up-to-date newspaper. Senator Utley will be the editor and Mr. Greenway is the practical man of the firm. Here's to the new firm.

"Human Hearts."

"Human Hearts" was just as we expected, good. There is a lesson taught in this play that makes it a great deal better than many of the attractions that come to Earlington. The plot is simple and easily followed; the climaxes are effective and some of the scenes tender and touching. "Human Hearts" is a play that will succeed in any intelligent community and one that will always find a warm welcome in Earlington.

CONFESSED MURDER.

Six Negroes Arrested Charged With the Crime at Pembroke.

Hopkinsville, Ky., December 12.—Six colored men were arrested at Pembroke tonight, charged with the murder of the unknown white man whose mutilated body was found near there November 14. George Holland confesses that he cut the man's throat after Frank Merrifield had knocked him in the head with an ax handle. The negro had seen the man in a saloon with a roll of bills, and followed him to where he had built a fire in the woods, and was found asleep.

Holland's queer actions gave a clue to the identity of the murderers. Ed Mosley had witnessed the murder, but did not recognize the men. In order to hide their crime the men cut off and mutilated the head of the victim and then buried it. There is another party implicated not yet arrested. A reward of \$400 has been offered for his arrest. The others arrested tonight were Frank Massie, Dick Carney, Chas. Finch and Bill Garrott. The prisoners will be brought here.

Three other negroes have since been arrested and jailed charged with complicity in this crime.

FURTHER TIME

Granted Madisonville Traction Company to Prove That It Is Corporation.

AUTHORIZED TO CONDUCT CONDEMNATION PROCEEDINGS.

The case of the Madisonville Traction Co. versus the St. Bernard Mining Co. for the condemnation of lands for right of way for a proposed electric line from Madisonville, was again before County Judge Givens yesterday.

The defendant filed a special demurrer to the petition of the plaintiff, upon the grounds that pleadings failed to show the Madisonville Traction Co. was authorized to build 10 miles of road as required by law. By leave of court attorney for the plaintiff amended the petition and alleged that plaintiff was authorized to build 10 miles. The general demurrer of defendant was overruled. Answer and exceptions to commissioners' report was filed, answer denying that plaintiff was a corporation authorized to conduct condemnation proceedings.

The plaintiff was granted further time to make proof that it is such a corporation and has such power. Case was reset for next Wednesday to be heard on this point. Other questions of fact to be reserved for later hearing.

A Trip in the Mines.

A jolly party of pleasure seekers went through No. 11 mine Tuesday night and had a ride on the new motor cars. The cars were lined with cloth in order to prevent the ladies from soiling their clothes. Mr. and Mrs. H. L. Browning chaperoned the party and all who had the pleasure of taking the trip were delighted with the novel experience of being whirled swiftly underground through the darkness. The following composed the party:

Dr. and Mrs. A. O. Sisk, Mr. and Mrs. B. B. Hackney, Mr. and Mrs. C. H. McGary, Messrs. Bryan Hopper, E. G. Sebree, J. Y. Montague, W. L. Gordon, Jas. Maloney, Jno. Long, Misses Annie Moore, Annie Ashby, Anna Rice, Georgia Wyatt.

A SAD ACCIDENT.

David Eudaley Falls From Top of a Box Car and is Seriously Injured.

HE IS STILL UNCONSCIOUS.

David Eudaley, who has been employed as switchman in the Earlington yard for about two months, was found lying between the tracks in an unconscious condition last Thursday evening. He was at once removed to the St. Bernard hospital, where he has since remained in a stupor, having never regained consciousness. It is supposed he fell upon his head, as there was a slight swelling above the right eye and no evidence of injury elsewhere. The jar of his head striking the frozen ground evidently caused concussion of the brain. Since last Thursday he had no nourishment except milk given through a rubber tube. Mr. Eudaley is a son of Mr. and Mrs. G. A. Eudaley, of Nebo, Ky., who have both been with their son since his injury. It is unnecessary to say that he is receiving the best medical treatment that can be obtained and everything possible is being done for him.

ROSE CREEK COAL & MINING COMPANY.

File Articles of Incorporation. New Company Near Nebo Capitalized at \$30,000.

The Rose Creek Coal and Mining Company have filed articles of incorporation with the county clerk at Madisonville. The incorporators are: W. D. Coil, of Nebo; James West, T. W. Blakely, C. B. Mathews and B. J. Mathews, of Hopkinsville.

The capital stock of the company is \$30,000, divided into shares of \$100 each and the stock is held as follows: James West, \$6,000; W. D. Coil, \$7,000; T. W. Blakely, \$4,000; C. B. Mathews, \$2,000; B. J. Mathews, \$2,000.

The business of the corporation will be to open and develop coal mines near Nebo, which is already being done and arrangements have been made to build a switch from the mine to connect with Providence branch of the L. & N. at Nebo, a distance of two miles. The principal office and place of business of the corporation will be at Nebo.

The company has a considerable body of land there and the vein of coal is one of the finest to be found in the country.

JOSEPH GOOCH ENDS HIS LIFE.

Prominent Farmer Near Slaughterhouse Cuts His Throat With a Razor.

Joseph Gooch, a well known farmer living near Slaughterhouse, Ky., committed suicide last Wednesday morning by cutting his throat with a razor while his wife was out milking the cows. Mr. Gooch sent the children into another room, secured a razor and cut four deep gashes in his throat. When found by his wife and children he was lying in a pool of blood and life was almost extinct. A doctor was hurriedly summoned, but when he arrived the dying man was beyond human aid.

Mr. Gooch was a sober, reliable man and a good, law abiding citizen, and had many friends in the community. He had been in ill health lately and it is supposed he was partially demented when the deed was committed. The deceased was about forty-five years old and leaves a wife and several children. His wife was a sister of Mr. S. H. Prather, of Madisonville.

BURNED TO DEATH.

Four-Year-Old Child Catches on Fire.

Wednesday morning the four-year-old child of Lee Anderson, a colored miner living near the lake caught a fire from the grate and was so badly burned before the flames could be extinguished that it died in a short while. The child's mother was away from home at the time of the accident and the only one near to render assistance was an eight-year-old sister, who caught the burning child in her arms and rushed to the hydrant with it to try and extinguish the flames. By this time the frightened outcries of the children brought assistance but it was too late as the child had inhaled the flames.

BURGLARS

IN TOWN.

Long and Crenshaw Robbed Saturday Night and an Effort Made to Break in Devylder's Store.

NO CLEW TO THE PERPETRATORS.

Saturday night was burglar's night in Earlington. Two stores were robbed by the light fingered gentry and an attempt to enter the front door of Devylder's store was frustrated by his son Frank being awakened. He at first thought some customer was rattling the door trying to awaken him and on going to the door was surprised to find some one trying to insert a key in the lock from the outside. He placed his key in the lock and quickly opened the door. A negro was standing there with a brown overcoat and cap on. Young Devylder asked him what he wanted, but the negro ran as soon as the door was opened.

On the same night some one broke in Crenshaw's dry goods store and M. B. Long's restaurant, but were frightened away before obtaining anything of value.

INVITATIONS ARE OUT.

Miss Grace Highbee Tinder and Mr. William Quincy Adams are out. The marriage will take place at the Christian Church, Madisonville, Tuesday afternoon, January 5th 1904 at 2 o'clock. Rev. S. F. Fowler pastor of that church will perform the ceremony. A special musical program is being arranged, and the church will be beautifully decorated for the occasion. This is to be one of the chief social events of the season at Madisonville and it is looked forward to with much pleasure by the many friends of the charming bride-and-popular groom-to-be. Miss Tinder is the daughter of Mr. and Mrs. Alonzo Tinder, of Madisonville. Mr. Adams is the publisher of the Owensboro daily and weekly Inquirer, and one of the most successful publishers in Kentucky. The bride and groom will leave for an extensive wedding journey in the South, after the ceremony.

Striking Miners Attack Deputies. From Trinidad, Colo., comes news of an ambuscade of deputies and clerks by a band of striking miners. The engagement lasted some minutes on both sides and the ambuscade party escaped. The deputies were driving through the country at the time of the attack. None were wounded. This differs from the Barnsley ambuscade of Messrs. Barnett, Harlan, Price and Porter, in that it was in the daytime and the deputies had an opportunity to defend themselves. In the west, as happened here, the unionists are not making any gains by the violence and outrages they daily perpetrate.

Ward & Wade's Minstrels.

This was a good, clean show and some of the specialties were above the average. The tumbling was unusually fine. The house was well filled and the audience appreciative.

Ashburnham, Ontario, Testifies to the Good Qualities of Chamberlain's Cough Remedy.

Ashburnham, Ontario, April 18, 1918—I think it is only right that I should tell you what a wonderful effect Chamberlain's Cough Remedy had on my voice. The day before Easter I was so distressed with a cold and cough that I did not think to be able to take any duties the next day, but my voice was so bad that I could not speak. The same day I received the cough. The same day I received an order from you for a bottle of your Cough Remedy. I have since purchased several bottles and take about three doses of the medicine. To my great relief the cough and cold had completely disappeared. I was soon able to speak again. The day before Easter I knew that this rapid & effective cure was due to your Cough Remedy. I would like to thank you for your wonderful solution, such being thankful to have found such a good remedy.

THE OLD RELIABLE

One of the most unique contests that we can recall took place at Mrs. Browning's boarding house Wednesday evening, when J. Y. Montague and Cal Martin raced to decide which could eat the fastest. A large plate containing twenty biscuits was set out and Walter McGarry chosen time keeper. Time 63 seconds. It was an amusing sight to see these two gentlemen eat whole biscuit, and the plate only lasted 51 seconds. Mr. Montague choked and Mr. Martin succeeded in beating him by the majority of two, the score standing 11 to 9.

HAPPENED IN A VERY
UNAMERICAN COMMUNITY.

The following is from the editorial columns of the Lexington Herald:

"Among the telegraphic dispatches sent out by the Associated Press was:

"Lexington, Ind., Dec. 3.—Miss Agnes St. Clair, a teacher at School No. 13, in Sullivan County, Ind., was taken to a pond by a crowd of her pupils this afternoon and given a ducking. The punishment was carried over a small matter, and during recess it was decided to throw her into the pond after school. Several girls were present, aged from eight to twenty, led her to the pond, and, after cracking the ice, held her in the water up to her neck. When two farmers who witnessed the scene rescued the teacher she was nearly dead from fright and cold, and is in a serious condition."

"Kentucky this is incredible. There is no neighborhood in Kentucky where this could not be done where it could be pleased. And if it be true, it reveals a coarseness, a brutality and a depth of depravity that is inconceivable. Whatever faults the men of America have, unconscious reverence for the sanctity of their women is universal; drunkenness and its consequent brutality and among the lowest criminals the hardening of the human nature by crime do sometimes show how men can become brutes by violence to wives or women who bear some resemblance thereto. But such youths could deliberately commit the outrage is incredible; and if it be true we pity Indiana with an unutterable pity that in her rural families such training is possible."

If the Herald knew what kind of a community this thing happened in it would not marvel. That is the place which harbored the murderers of Officer Robert Coffey and confidently defied the authorities of the law to come and get them. But a few determined Kentucky detectives went to Sullivan and brought the fugitives into the face of a howling mob who did not dare to interfere. Two of the number are now serving life sentences for the murder of Mr. Coffey. Sullivan is a seething hotbed of the extreme sort of miners' unionism that recognizes no law but the pleasure of the union.

The most unique thing in the advertising line happened recently in Minneapolis when a big merchantile company "complimented" the Minneapolis Tribune by perfuming all the white paper used in printing the Tribune for that day. Two barrels of perfume were sprayed on the paper as it went through the press. Of course the merchantile company got the benefit of the advertising, which it deserved, being a very liberal user of newspaper space.

The many substantial endorsements and complimentary comments that have been and are being given THE BEE upon the Special Coal and Railroad Number are encouraging in the highest degree. These kind words will constitute a fixed asset in THE BEE's balance sheet for all time. They come from Kentucky papers in numbers and from numerous widely scattered publications and trade journals in other States of the Union.

The Henderson Gleaner declares that Western Kentucky has wonderful resources, developed and undeveloped, especially in the mining line. The Gleaner has evidently been reading THE BEE's Special Coal and Railroad Number.

POLITICAL STATE NEWS.

The Breckinridge News, an independent paper, has scooped the Democratic papers of the state by announcing that Dr. Milton Board, of Hardinsburg, will get the place of superintendent of the Hardinsburg Asylum, now occupied by Dr. J. W. Ray. The Hardinsburg Kentuckian says that Dr. Hay has according to rumors, had a fight on to retain his position but this is the first definite publication on the subject.

Judge George DuBois of Louisville is thought to be fatally ill at a hospital in that city, though a slight improvement in his condition was noted Tuesday. The illness was caused by a slight contusion of the brain received in a fall on the icy pavement in New York recently. The skull has been trepanned and a puncture taken out.

It is thought at Bowling Green that Major E. H. Watt, of that city, will be selected as assistant adjutant general to succeed Percy Haley, recently promoted to adjutant general upon the retirement of Gen. Murray.

Col. Mott Ayres, publisher of the Fulton Leader, will go to Frankfort as deputy insurance commissioner, having sold a stock company that will publish the Leader in the future.

A new military company has been organized at Cloverport, headed by L. A. Murray, son of former Adjutant General D. R. Murray. The new company will be called the Murray Guards.

George Peters, formerly of Central City and Madisonville, but now of Owensboro, is again a candidate for assistant clerk of the legislature.

John T. Davis, legislator-elected from Ballard and Carlisle is reported critically ill and will not be able to attend the opening of the session.

Mr. R. L. Green, Assistant Clerk of the Court of Appeals under Shaefferoff, has been sworn in as a practicing attorney in Frankfort.

Speaking of oil—oil the price is too high for us to invest.

Appointment of Assistant Adjutant General of the Kentucky army has been made but will not be announced until later.

The Elizabethtown News and the Bowling Green News have declared in favor of William B. Hearst for president.

Ex-Gov. John Young Brown, who has been ill for some time at Henderson, is reported in improved condition.

A Washington dispatch says that D. C. Edwards is there preparing to contest for Dr. Hunter's seat in Congress.

A THOUGHT FOR THE WEEK.

"Be careful in the selection of names. A good article is often spoiled by an injudicious name."

Mr. Pose said the failure of the American Biscuit Company—the company which was chosen to conduct a critical time.

D. M. Lovell, of Chicago, observed that a man might as well expect to maintain steam in a boiler without coal as to attempt to continue a business created by advertising, though dropping the advertising.

Millions' Poor Stomach.

The worn-out stomach of the overfed millionaire is often paraded in the public papers as a complete example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who have stomach trouble and pains. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and a single glass of beer increases the millionaire unless they avail themselves of a standard medicine like Green's August Wine.

What has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower has the tonic, liver, thus giving a strong and invigorating effect digestion. It tones and vitalizes the entire system and makes life worth living no matter what your size. Trial bottles, 25c, regular size, 10c.

"The Henderson Route"—Always First.

Louisville, Ky., Oct. 29, 1903.

The traveling public will be pleased to learn of the latest innovation in the way of comfort in travel for its passengers which is known as the "Henderson Route," which road has been rightly termed "the Traveler's Paradise."

It has just been announced from the general offices of the Louisville, Henderson and St. Louis Railway that they now have service on the night trains between Louisville and St. Louis, Free Reclining Chair Cars, which have just been received from the shop and are a revelation to the one who travels.

The cars are strictly up to date, first class "palaces of travel" on wheels, and claim to be one of the most comfortable which are produced by the Henderson Route.

Among other advantages offered in these highly finished cars, a few of the more important points only are mentioned:

They are solidly vestibuled and so firmly built that the rear chain, which are upholstered in beautiful green plush, in addition to smoking and toilet rooms, the smoking room being large enough to hold ten in leather. They are also fitted up with triple trucks, which feature will do away with the jerk, jar and jolt of travel in the ordinary railway car, and insure a smooth, comfortable ride. This should prove a great service to the traveling public, and we can only suggest that in traveling you "get the Henderson Route" habit."

The splendidly wooded hills with the cool, invigorating air of these highlands where one can enjoy rambles in the depths of the forest, or rides and drives in the open air, afford pleasure for those who desire rest and quiet; while at the splendid casinos one can have all the entertainment and social pleasures possible at the most fashionable resorts.

FRENCH LICK AND
WEST BADEN SPRINGS.

In the highlands of Indiana—a two hour ride from Louisville there flow wonderful healing waters, that you'd spend hundreds of dollars to enjoy if they were in Europe.

A recent visitor from Philadelphia, who formerly went to Carlsbad every year, said: "I do not see why anyone goes to Europe for medicinal waters. The water is as beneficial, and the scenery and surrounding country, the air and the opportunities for recreation are better; the hotels and all accommodations are much finer at French Lick-West Baden Springs"—and this gentleman is a native of Switzerland.

A Fact About Quail.

Now that the annual war of extermination against the quail has opened up, it is not out of place to recall a touching characteristic of this game and hunting bird. This quail, unlike any female will ever desert its mate for another, and the loss of one pair is equivalent to the death of both. If the hen quail, on the death of her mate, is paired with another bird, her eggs are barren and are never known to prove fertile under any conditions. This is a constancy of affection not always imitated by human beings.

Another remarkable fact connected with the American quail is its inability to thrive in foreign countries. It is a fact that no exportation of this bird to other lands has ever succeeded in increasing itself. For this is apparently propagates, but within a few years invariably becomes extinct. "The American quail is distinctly an American institution." —Glasgow Times.

The readers of this paper will be pleased to learn that there is at least one dried disease that science has been able to cure. That disease is Cancer, and that is Cancer. Hall's Cancer Cure is the only positive cure known to the medical fraternity. Cancer being a constitutional disease, requires a constitutional treatment. Hall's Cancer Cure is taken internally, acting directly upon the blood and muscle tissue of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitutional power of the body in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars reward for the discovery of a cure.

Compliment to Coenen Bros.
The following was clipped from the Morganfield paper and goes to show what the people of that city think of the work of Coenen Bros.: "The Coenen Bros., have returned from Dixon, where they have recently completed a large contract for papering and painting. Whenever any work requiring especially good painters is to be done within a radius of fifty miles of Morganfield it seems that the Coenen Bros. are the ones called on to do it."

LOCOMOTIVE BLASTS

A CONTRAST.

Summer nights are short, an' apt To make us lie awake an' scheme; Winter nights' too long for that, So we sleep an' snore an' dream.

On a summer morn' we're glad to rise At the alarm-clock's t-tink-tink; On a winter morn' we'd rather be wise So we lie in bed an' think, an' think.

Work is to begin on the new car works plant at Henderson at once. It is said the plant will cost \$200,000, including machinery and equipment.

The company is capitalized at \$1,000,000, and proposes to give employment to 200 men on the opening day,

This number to be increased later. This company will manufacture Straus sleeping car and a general line of railroad and electric cars.

Orders have been received at the car department of the Wabash system at Decatur, Ill., to make a reduction of 10 per cent in expenditures for wages. One hundred and fifty men will be laid off.

For the first time in the history of the Cleveland and Indianapolis division of the Big Four railroad, a negro has been employed as a locomotive fireman. During the past year all but seventy of three hundred firemen hired have resigned, and it is probable that negroes may be quite generally employed in this capacity in the future.—*Courier-Journal*.

Chicago, Dec. 12.—The trainmen of the Chicago and Eastern Illinois road are to be given a course of instruction regarding the best method of giving first aid to the injured in case of railway wrecks. The project was started at the annual banquet which the officials of the company tendered the surgeons of the entire system at the Great Northern hotel.

The plan is to establish schools in the various division headquarters and require the trainmen to attend the lectures and demonstrations which will be given on the subject. Examinations will be held from time to time, and before many months one car in each Eastern Illinois train, both freight and passenger, will have an emergency box well stocked with the necessary articles to use in accidents.

Paducah, Ky., Dec. 11.—The Illinois Central has made a reduction of forty men in its machine shops here pursuant to orders from headquarters. It is the third cut this year.

George E. Evans, general manager of the Louisville & Nashville, announced that the Pullman Company has shipped the last ten coaches of the contract placed by the L. & N. more than a year ago. The shipment concluded the increase of the passenger equipment which the road is making, and the additional equipment for the present will consist of that which is built in the company's shops.

Charles H. Mix has resigned his position as machinist at Howell. Mr. Mix has gone to Nashville, where it is thought he will make his future home.

Three of the 600 class of engineers have been turned over to the Memphis Line for service there.

W. L. Wittmeyer of Howell went to East St. Louis on business for the Company Thursday.

F. L. Dice, machinist at Howell, will go to Minneapolis, Minn., in a few days.

Fireman C. H. Brundick is visiting in East St. Louis.

Traveling from P. J. Dillon will spend Christmas with his father and mother at Louisville.

Ky.

The Louisville & Nashville has out its calendar for the year 1904. These calendars are printed on cardboard and the twelve months of the year are on the same sheet, so that they are on hand all the year. This calendar has been the L. & N. standard for twenty-five years.

The holiday posters issued by the L. & N. this year are done in five colors and are very attractive.

William Tallman of the St. Louis Car Wheel Co., was at Howell last Wednesday on business.

Engines 1028 and 1030 have been stopped off at Nashville to be set up for service on the Henderson Division.

H. Simmonds was at Howell last Monday in the interest of the Ganlock Packing Company.

New engines 1018 and 1019 are being broken in between Earlinton and Howell.

A. W. Long, after firing a short while on the Henderson Division, has resigned to accept a position as electrician and station engineer for a coal company.

W. C. Arthur, vice president of the Mt. Vernon Car Manufacturing Co., stopped off at Howell shops Thursday while on his way to Evansville.

The latest news from Col. W. F. Sheridan is that he is mighty, mighty homesick, somehow.

The fatal accident to William Hall, an ex-brakeman of the L. & N., whose body was managed between Howell and Evansville, is directly chargeable to whiskey, for the man was beastly drunk, and the supposition is that he attempted to board the train. Whiskey was also the cause of Mr. Hall's downfall as a brakeman.

Harvey DeJarnatt, painter at Howell, has gone to Springfield, Ill.

Passenger engine 102 was prettily badly damaged in a collision with the Iron Mountain accommodation at E. St. Louis last Friday.

A new system has been adopted by the L. & N. for handing and checking the tickets of through passengers, which is meant to circumvent ticket scalpers. The first conductor takes up the passenger's ticket and gives him a substitute ticket which bears complete description of the original. This is carried out to the destination, so that a ticket cannot be used part way, doctored by a scalper and resold.

The Memphis Commercial Appeal declares that Vice Pres. J. T. Harahan, of the Illinois Central, said to a reporter for that paper that his company had not the remotest idea of purchasing the Tennessee Central.

Prince of Pilsen.

Mr. W. C. Morton went to Evansville Monday to hear the Prince of Pilsen, which is booked for Morton's Theatre early in January. He was highly pleased and pronounced it a great show as it really is. The "Prince" played at McCauley's in Louisville last week to crowded houses. The music is catchy and tuneful, with several special numbers of superior character, the fun is good and frequent and clean and the talent is far above the average in comic operas. As for costumes and general stage effects they are superb. The Prince of Pilsen is one of the very best comic operas on the American stage this season and the jury was out only eight minutes. Aylo's pie was self-defense.

NEW ORLEANS FLYER WRECKED

Passenger Train on the Louisville & Nashville and a Freight Collide at East St. Louis.

THE ENGINE CREWS ESCAPED BY LEAPING FROM THEIR CABS

Mail Car Went Down a Twenty-Foot Embankment, Slightly Injuring Three Mail Clerks—The Passengers Radely Shaken Up, But Only Radely Scared.

St. Louis, Dec. 13.—Speeding along at the rate of 30 miles an hour, the "New Orleans Flyer" of the Louisville & Nashville, carrying 120 passengers, and a freight train of the St. Louis, Iron Mountain and Southern Railroad, collided with a freight train at Third street and St. Clair avenue, East St. Louis, at 7:40 o'clock Saturday morning.

Jumped for Their Lives.

The accident meant life or death to the engine crews. Without a moment's deliberation, the two crews leaped from their cabs to the ground.

The mail car attached to the passenger train was telescoped, and the engine clerks, Russell McCormick, of New York, Tom Spickard and H. Waggoner of Madison, Ill., clung to the sides of the car as it toppled down a 20-foot embankment.

Spickard and McCormick received cuts on the face, but otherwise the mail clerks escaped uninjured.

In a jump from his engine, Clarence Shaw, fireman on the passenger train, was painfully bruised about the face and body. Lifting himself to his feet, and without waiting for a physician, he started his home.

Fireman Radely Brained.

"Just now most of the passengers are hurt I'll not worry about myself," were the words of the fireman to those who tendered him sympathy.

That the collision did not completely derail both trains is inexplicable to me who witnessed it.

Passengers Radely Shaken Up.

All of the passengers were badly shaken up, and some of them were thrown in a heap to the floor. The women screamed in their fright, and for a moment the strongest nerves gave way.

The Louisville & Nashville train consisted of three passenger coaches, a mail car, three sleepers and a baggage and express car. The freight train was made up of four coal cars. The iron mountain and southern had the in-bound track, and the passenger was coming west. Near Third street and St. Clair avenue is a half-mile curve. Around this the passenger train was speeding when the freight came into view. The trains were just 20 yards apart. It was too late to stop.

The engines are almost a total wreck, the collision piling them one upon the other.

WILL TRAIN ITS TRAINMEN.
